Where ideas take shape

International exhibition &
convention on the next
generation of manufacturing
technologies

Honorary sponsor

Working Group
Additive Manufacturing

RECONFIGURE MANUFACTURING

The demand for increasingly complex and customized parts is rising, product cycles are becoming shorter, established supply chains are being called into question and sustainability is playing an ever greater role.

In short: Industrial production is becoming more demanding. Additive Manufacturing offers solutions to meet these challenges and inspire your customers.

AM has applications in a growing number of industries

Automation and handling

Automotive

Construction and architecture

Consumer health care

Dental technology

Electrical engineering/electronics

Energy

Research and development

Domestic appliances

Aviation and aerospace

Machinery and plant engineering

Medical technology

Offshore and marine

Rail and transport

Watches and jewelry

Packaging

Tool and die making

EXPERIENCE AM AT ITS BEST

As the leading industry platform for Additive Manufacturing and industrial 3D Printing, Formnext is the international meeting place for the next generation of intelligent industrial production. Formnext in Frankfurt is the industry highlight of the AM community and presents the entire world of Additive Manufacturing and its upstream and downstream processes under one roof. Exhibitors will be showcasing solutions in the following areas:

- Solutions for Additive Manufacturing
- Design / product development
- Materials
- Manufacturing preparation / pre-processing
- Solutions for component processing
- Solutions for surface treatment
- Quality management / metrology
- Digitalization / services / tool and die making
- Apprenticeship, training and qualification
- Research and development
- Organizations and publishing companies
