SHAPE THE FUTURE OF MANUFACTURING

Demand for increasingly complex and customized parts continues to rise. Product cycles are becoming shorter, established supply chains are being called into question. Sustainability is playing an ever greater role. Industrial production is becoming more demanding. Additive Manufacturing offers you the solutions to meet these challenges.

Stay one step ahead of your competition!

Visit Formnext – the international expo and convention for Additive Manufacturing, from 17 – 20 November 2026, in Frankfurt, Germany. This is where the AM community comes together to experience innovations, expand networks, and actively shape the future of manufacturing.

AM has applications in a growing number of industries

Architecture and construction

Automation, robotics and handling

Automotive, transportation and mobility

Dental technology

Domestic appliances

Electronic engineering

Medical technology and healthcare

Offshore and marine

Packaging

Security and defense

Tool and die making

Aviation and aerospace

Chemical industry

Consumer goods, sports and fashion

Energy, oil and gas

Jewelry and watches

Mechanical and plant engineering

Rail and agriculture

Research and development

Science and institutes

EXPERIENCE AM AT ITS BEST

As the leading industry platform for Additive Manufacturing and industrial 3D Printing, Formnext is the international meeting point for the next generation of intelligent industrial production. This industry highlight in Frankfurt is the perfect place to experience the entire process chain of Additive Manufacturing with all its technologies and application possibilities under one roof.

EXHIBITORS WILL BE SHOWCASING SOLUTIONS IN THE FOLLOWING AREAS:

- Software and digitalization solutions
- Materials
- AM systems
- Ancillary process systems
- Quality management / metrology
- Services
- Institutes and academia
- Workforce development
- Associations, market research and media

NEW IMPULSES FOR MODERN MANUFACTURING

LOOK FORWARD TO THE FOLLOWING HIGHLIGHTS:

- Stage program featuring presentations on current and future applications, technologies, and trends
- Discover3DPrinting seminars: a compact introduction to the world of 3D Printing in cooperation with ACAM – Aachen Center for Additive Manufacturing
- Highlights from our partner country UK
- Showcases by the Working Group Additive Manufacturing of the VDMA and BE-AM (Built Environment Additive Manufacturing)
- Showcase and guided tours on the latest developments in post-processing
- Start-up Area and Pitchnext Event with the participants of the Start-up Area and the finalists of the Start-up Award and Rookie Award
- BE-AM Symposium: exchange on the latest developments in Additive Manufacturing for the construction sector
- Formnext Awards: the industry's top innovations – including voting and award ceremony
- Formnext Defence Summit
- Career Area: networking, job wall, career consulting and professional photo shoots

ONE DAY PRIOR TO FORMNEXT:

- AM Innovation and Standards Summit: discussions on certification and standards in Additive Manufacturing

PARTNER COUNTRY
UNITED KINGDOM

WE LOOK FORWARD TO SEEING YOU

Formnext is the key meeting point for the AM community – full of inspiration, valuable connections, and forward-looking solutions.

When?	17 – 20 November 2026
Opening hours:	Tue – Thu 9 a.m. – 6 p.m. Fri 9 a.m. – 4 p.m.
Where?	Messe Frankfurt, Halls 11, 12 and Portalhaus

Your ticket options

We offer three types of tickets for your visit to the trade fair – from a focused Day Pass to the exclusive Formnext experience. Find an overview of all ticket options at:

formnext.com/tickets

Tips for your visit

Few exhibition grounds are as easy to reach and offer such a wide range of accommodation options as Messe Frankfurt. We have also arranged special rates with hotels, Deutsche Bahn, the Lufthansa Group, and Air France KLM. Start planning your visit here:
